

Service Solutions for Lackawanna

Sunday, March 4, 2018

*Meet the New 42
and a Simpler 16*

Metro is making service better for the residents of Lackawanna and Hamburg

The 16 South Park & 42 Lackawanna
are replacing 36 Hamburg

New and Improved

After getting together with riders in the community, asking questions and discussing answers, Metro has come up with bus service with big improvements:

- New evening and weekend service to The Shops and Southgate Plaza
- Increased bus frequency
- Streamlined service – two routes now do the work of three

See your #16 and #42 timetables for details. Previews available at metro.nfta.com

Still the same

Metro's solution means no loss in area covered.

By pruning away duplicate service, Metro is able to improve quality and accessibility without cutting back on destinations. It is a direct result of community participation and a model for the way Metro has worked, and will continue to work, across the region.

We're not done

Metro is always looking for ways to make bus and rail service work for you. Tell us what you think. Send us your ideas.
